

RESOURCES:

WHAT IS CONTINUING CARE?

A continuing care retirement community (CCRC) is a senior-living community where mature adults can enjoy private, maintenance-free residences on an amenity-filled campus and gain the assurance that if needed, exceptional healthcare will be available to them through every stage of life.

Our philosophy embraces a continuum of care, providing supportive services to overcome the challenges of life as they arise. In addition to many outstanding services and amenities, living at Plymouth Harbor also assures you priority access to assisted living, rehabilitation and skilled nursing services within the community, if needed. You'll never need to move again to receive additional levels of care. With one move, you can enhance your financial security, lifestyle flexibility and peace of mind.
